

THE SIGHTS & SOUNDS
OF EDUCATION

Hearing Safe™ Hearing Protector

Model HS40

This hearing protector, or ear muff, blocks out potentially damaging external noises by completely covering the outer ear. It is designed to be worn by younger students while in industrial arts or other loud areas.

1. Rugged polypropylene headstrap
 2. ABS plastic earcups hold up to continued usage in high-use settings
 3. Adjustable headband fits students of all sizes
 4. Bright red safety color
 5. The earcup shape is designed to completely cover the ears. Its 1.4" x 2.5" opening has a shallower 0.6" depth that's more comfortable and tailored for younger students. With added comfort, students are more inclined to keep these protective headphones on.
- One year warranty for school use - unlike items purchased at a consumer electronics store whose warranty is voided if used in schools
 - Califone has partnered with the American Speech-Language-Hearing Association to promote the responsible use of personal audio technologies. Click to [learn more](#).
